

Building Permit Requirements Questionnaire

Building Department: 604-990-2480, building@dnv.org

COMPLETION: This Questionnaire is intended as a guide to the building permit application requirements for work on a single family residential lot. A YES answer to any of the questions will point to a companion MRL (Master Requirement) or requirement note. The companion MRL outlines both the purpose and the associated submission requirements. Individual MRL's may be requested at the DNV Permits Counter or found online at www.dnv.org. By completing the Questionnaire, becoming familiar with the associated requirements, and providing the necessary documentation, an applicant will avoid costly delays in the application process.

- No Requirements proceed to next question
 See corresponding, notes, MRL's and submission requirements

Location of work/Contact		BLD	
Address			
Description of work		Zone	
Contact Name			
Email		Phone/Cell	

QUESTION	YES	NO	MRL No.	Notes
1. Owner/Owner's Agent				
1.1 Will either the owner, and/or the owner's agent, be applying for a building permit?				The owner and agent (if applicable) must sign the Building Permit Application Form.
2. Subdivision/Charges on Title				
2.1. Is this application related to a subdivision application pending approval? See Question 3.2 as well			GEN103	May affect the timing that an application will be received, or a permit issued.
2.2. Are there registered charges, notations, covenants, easements or right-of-ways that may limit the scope of work?			GEN102	May affect the form, siting and/or development potential of a property.

QUESTION	YES	NO	MRL No.	Notes
2.3. Does this project require the unconsolidation of two to more properties?			GEN104	A new address will be required and given by District staff.
3. Zoning and Development				
3.1. Is the proposed work in a Development Permit Area?				See GeoWeb for Dev. Permit Areas and contact ENV Dept. for specific requirements, including the requirement for a Qualified Environmental Professional's Report prior to plan review appointment.
3.2. Is the application related to a previously approved <i>Development Variance Permit, Board of Variance</i> or subdivision application?				Application must match approved DVP & BOV conditions, drawings and Covenanted subdivision requirements.
3.3. Is the Property located in an area subject to <i>Design Guidelines</i> ?			GEN106	<input type="checkbox"/> Anne MacDonald Way <input type="checkbox"/> Taylor Creek PI <input type="checkbox"/> Kilmer Crest
3.4. Does your project involve the alteration or demolition of a designated or listed heritage building?			GEN107	Contact the District Heritage Planner for specific requirements.
3.5. Is the work in the Grouse Woods or Lionsgate neighbourhood zone?			See Zoning Bylaw 502.1	Max height and eave height is limited to that of existing house.
3.6. Are you constructing a new building or changing the exterior of an existing building?			See Zoning Regulation Bylaw	A Zoning Compliance Checklist can be obtained at the permits counter or online.
3.7. Is the subject property zoned for uses other than <i>single family dwellings</i> or does the project require a zoning variance?				A Building Permit application will not be accepted if the proposed work does not comply with Zoning.
3.8. Does the application include a demolition permit for a <i>single family dwelling</i> built before 1950?				Waste Diversion Wood Salvage Plan form must be submitted with BP application.

QUESTION	YES	NO	MRL No.	Notes
4. Homeowner Protection Act				
4.1. Are you constructing a new Single Family Dwelling or are you removing more than 75% of the existing structure? If NO, proceed to Section 5				
4.2. The Building Permit will be issued to an Owner Builder as defined by the Homeowner Protection Act, or			SPE101	Applicants are required to submit completed BC HOUSING Home Warranty Insurance documentation PRIOR to issuance of a permit.
4.3. The Building Permit will be issued to a Licensed Residential Builder as defined by the Homeowner Protection Act.			SPE102	
5. General				
5.1. Does your project involve construction on public Property, or is there an existing structure on public Property?			GEN105	Removal of encroachments or a licence to occupy may be required.
5.2. Does this project involve a <i>secondary suite</i> ?				Secondary suites are permitted in SF zones but are subject to Code and Zoning req'mnts. Panel location must be shown on the drawings and if the suite is proposed in an existing dwelling, upgrading to minimum 200 AMP service is required, and must be confirmed in writing. If unsure consult with electrical contractor to do a load calculation.
5.3. Does this project involve a home based business (a <i>home occupation</i>)?			See Zoning Bylaw s.405	Location, size and permitted businesses limited per Bylaw.
5.4. Is the subject property only accessible by water?				Water taxi fees apply.
5.5. Has work been started without permits?				Permit fees will be increased per Fees & Charges Bylaw, Schedule B.

5.6. Does this project include a pool or hot tub?			BLD119	Building, Electrical, Plumbing, Zoning, Gas and Noise Bylaw Requirements
QUESTION	YES	NO	MRL No.	Notes
6. Professionals Required*				*Also questions 7.3, 8.1, 9.2 & 9.4
6.1. Is the “new” floor area greater than 500 sq ft of NEW footprint area? <i>Does not apply to a detached garage, carport or minor accessory building.</i>			BLD101	Geotechnical Engineer Required
6.2. Are you constructing within 30' of a slope greater than 18%?			BLD101, SPE104	Geotechnical Engineer
6.3. Are you constructing within 30' of a slope greater than 36%?			BLD101, SPE105	Geotechnical Engineer
6.4. Does your project include structural work (e.g. point loads, oversized beams, non-uniform loading, etc.) which falls outside the scope of Part 9 of the BC Building Code?			BLD101	Structural Engineer
6.5. Is your project a new house, or does the design include 2 or more storeys with flat Roofs and no roof overhangs?			BLD101	Building Envelope Specialist required.
6.6. Areas within the District which may have limited water supply or pressure, difficult access or extended fire services response times have been designated Fire Limits Areas. Is your property located within the District of North Vancouver Fire Limits Area?			SPE103	Mechanical Engineer Residential fire sprinklers required.

6.7. Does the project involve: a. alterations to an existing dwelling or construction of a new dwelling in the <i>Seymour River Flood Plain?</i> , or b. alterations to, or construction of, a basement in an area adjacent to the <i>Seymour River Flood Plain?</i>			SPE106	a. Specialist engineer with expertise in river engineering. b. Specialist engineer with expertise in river engineering or special backflow protection may be required.
QUESTION	YES	NO	MRL No.	Notes
6.8. Does your project involve alterations to an existing dwelling or construction of a new dwelling on property subject to <i>Debris Flood</i> and <i>Debris Flow Hazards?</i>			SPE107	Specialist engineer with expertise in creek engineering.
6.9. Does your project involve alterations to an existing dwelling or construction of a new dwelling in an area with a High Water Table or in a Liquefaction zone?				A hydrologist or geotechnical report will be required which may limit the ability to construct a basement.
6.10. Will this project require blasting?			See Blasting Regulation Bylaw	Specialist engineer required.
6.11. Will you have a registered professional involved with your project?			BLD120	<i>Schedule F – Confirmation of Professional Liability Insurance</i> Required from EACH professional.
6.12. Will you have more than one <i>Registered Professional</i> involved with your project?			BLD101	Schedule “A” required with Coordinating Registered Professional and Owners signature. CRP must initial all other professional Schedule B’s.
7. Potable Water				
7.1. Will the potable water be supplied from a creek, a well, a private community system or other source not connected to the District’s Waterworks System? If NO, proceed to Section 8				
7.2. Will you be connecting to a community water system?			SPE109	Applies if more than one dwelling shares any component of a non District water supply system.

7.3. Do you have, or will you be connecting to, a private water system?			SPE110	Applies to single homes connected to a non-District water supply including creeks and wells. P. Eng required
7.4. Will you be drawing water from a creek?			SPE111	Provincial Water Licence required.
QUESTION	YES	NO	MRL No.	Notes
8. Sanitary Sewer System				
8.1. Is a pump required to connect to the District's Sanitary Sewer System?				Registered Professional & High Level Alarm required.
8.2. Will the sanitary sewage discharge to a private or community system other than the District's Sanitary Sewer system?			SPE108	Includes on site septic tanks, septic fields, package treatment plants and marine discharge systems. -North Shore Health approval required. -Vancouver Port approval may be required.
8.3 Is your construction value greater than \$200,000?			ENG106	Sanitary line may need to be renewed or replaced.
9. Storm Sewer System				
9.1. Is the proposed work less than 250 square feet in Building area? If YES, proceed to Section 10				
9.2. Is the proposed work greater than 250 square feet but less than or equal to 400 square feet? If YES, proceed to Section 10			SPE112	Requires a geotechnical engineer to confirm suitability of an alternate storm water disposal system.

9.3. Is the proposed work greater than 400 square feet?			ENG101, GEN108	Requires an existing house and all new homes to connect to the District's storm sewer system.
9.4. Is a pump required to connect to the District's Storm Sewer System?				Registered Professional & High Level Alarm Dual Pumps Covenant on Title
QUESTION	YES	NO	MRL No.	Notes
10. Scope of Work (to determine required drawings)				Please check the type of work you are applying for:
10.1. Demolition			GEN102,107, BLD104, Pest Report may be required	<p>NOTE:</p> <p>Homeowners should contact a District residential plan reviewer early in the design stage to determine the need for a topographic survey and to verify required drawings.</p> <p>Non-encroachment type surveys (mortgage surveys) may be sufficient to establish setbacks for very minor work. It may, however, be necessary to submit a topographic survey in order to verify compliance with setback, eave and height requirements as well as the Environmental Preservation and Protection Bylaw. A non-encroachment survey is generally required for all types of work.</p>
10.2. Retaining walls greater than 3 ft (0.9 m) in height			GEN102, BLD101, 104, 107, 110, 114	
10.3. In ground pool only			GEN102, BLD101, 103, 106, 119	
10.4. Interior renovation only			GEN102, BLD110, 111	
10.5. Interior renovation with a <i>secondary suite</i>			GEN102, BLD106, 110, 111	
10.6. Interior renovation with exterior modifications (e.g. windows added)			GEN102, BLD106, 110, 111, 112	
10.7. Major additions and alterations, slope less than 18 percent			GEN102, BLD104, 107, 110, 111, 113, 114	
10.8. Major additions and alterations, slope 18 percent or greater			GEN102, BLD105, 108, 109, 110, 111, 113, 114	

10.9. New Single Family Dwelling, slope less than 18 percent			GEN102, BLD104, 107, 110, 111, 113, 114	
10.10. New Single Family Dwelling, slope 18 percent or greater			GEN102, BLD105, 108, 109, 110, 111, 113, 114	
10.11. Minor additions and alterations, sundecks, parking and accessory buildings				See NOTE ↑
QUESTION	YES	NO	MRL No.	Notes
11. Driveways & Property Access				
11.1. Does the property abut an open District Lane Allowance?				If a lot abuts an open lane, no vehicular access will be permitted from the street for any new construction or change of driveway location.
11.2. Does the project require construction vehicles to use DNV streets and property for construction purposes?				A Highway Use Permit may be required. Contact ENG at 604-990-2450.
11.3. Does the project involve: a. Building a new driveway or adjusting the location of the existing driveway? or b. Alterations to District boulevard, including any planting? If NO, proceed to Section 12				A Site plan and drawings with all proposed changes to District boulevard, including planting, must be submitted with the building permit. Min 1.5m clear from curb is req'd. Driveway crossings are limited to 4.5m in width and must, where possible, be at least 9.15m from a parcel corner on a corner lot. Related questions should be directed to the ENG department.
11.4. Do you require alterations to existing curbing or new curbing to be constructed by the District?			ENG105, GEN108	Sketch of proposed driveway size and location for GEN108.

11.5. Does the proposed driveway work involve a slope? If NO, proceed to Section 12				Indicate Slope on Plans.
11.6. Is the proposed driveway slope less than 10 percent?			ENG102	Indicate Slope on Plans.
11.7. Is the proposed driveway slope 10 to 20 percent?			ENG103	Indicate Slope on Plans.
QUESTION	YES	NO	MRL No.	Notes
11.8. Or more than 20 percent?			ENG104, SPE105	Must be designed by P. Eng.
11.9. Will the proposed driveway work require retaining walls greater than 4 feet in height, placing of fill or excavation within the District boulevard?			ENG104, BLD101- Structural & Geotechnical	Materials used as retaining walls in boulevard restricted by Council Policy.
12. Streams				
12.1. Is there a stream or <i>drainage works</i> on, or within, 15 metres of your property? If NO, proceed to Section 13				
12.2. Is the proposed <i>work</i> within 30 metres (100 feet) of the <i>top of bank</i> of the stream?			ENV119	
12.3. Will the proposed <i>work</i> involve new foundations or enlarging of an existing foundation?			ENV119, ENV113	
12.4. Will the proposed <i>work encroach</i> closer to the <i>stream</i> or <i>top of bank</i> more than existing buildings, structures or other improvements?			ENV119, GEN108	

12.5. Will the proposed <i>work</i> impact or come in contact with the <i>groundwater</i> ?			ENV110	
12.6. Will there be <i>work</i> below the <i>top of bank</i> or in the bottom of the <i>stream</i> channel?			ENV119, GEN108	
13. Foreshore				
13.1. Is the proposed work on <i>waterfront</i> property? If NO, proceed to Section 14				
QUESTION	YES	NO	MRL No.	Notes
13.2. Is the proposed work within 30 metres (100 ft) of the <i>waterfront</i> ?			ENV119	
13.3. Is the proposed work on land within the <i>Vancouver Port Authority</i> jurisdiction?			ENV116, ENV119, GEN108	
13.4. Is the proposed work on the ocean side of the <i>natural boundary</i> of Burrard Inlet?			ENV114, ENV119, GEN108	
14. Slopes				
14.1. Does any portion of the property exceed a 30 percent <i>slope</i> ? If NO, proceed to Section 15				
14.2. Will you excavate or <i>deposit</i> soil on the <i>slope</i> ?			ENV101, ENV117	
14.3. Does any portion of the property exceed a 57 percent <i>slope</i> ?			SPE105	

14.4. Is the area of the proposed work contained within a <i>restrictive covenant</i> ?			ENV117, GEN108	
15. Soil				
15.1 Are you: a. removing and/or <i>depositing</i> more than two truckloads (18 cubic metres) of soil, or b. is the proposed work a new dwelling or detached structure?			ENV117, ENV102	
QUESTION	YES	NO	MRL No.	Notes
16. Trees				
16.1. Are there any trees on your property, adjacent neighbouring property, or District property within 16.5 fee (5 metres) of the proposed work or do you plan on removing/pruning any trees? If NO, proceed to Section 17 If YES, proceed to Section 16.2 and submit arborist report at time of DP/BP Application			ENV105	
16.2. Do you have an arborist report and tree protection plan based on the topographical survey? If YES, proceed to Section 17			ENV106, ENV118	
16.3. Are you planning on removing/pruning any trees on your property that are greater than 0.75cm (2.5 ft) in diameter or 2.4m (7.75 ft) in circumference?			ENV118	
16.4. Are you planning on removing/pruning any trees on your property located within 30m of a stream/wetland or waterfront?			ENV118	
16.5. Are you planning on removing/pruning any trees on your property located on a slope greater than 30 percent?			ENV118 Tree Bylaw - Steep Slope (geotech review req'd)	

16.6. Are you planning on removing/pruning any trees on your property located within a restrictive covenant area?			GEN108	
16.7. Are you planning on working within 5m (16.5 ft) of any trees that are in shared ownership or located on adjacent neighbouring property?			ENV105	
16.8. Are you planning on removing/pruning any trees on District property?			ENV105	
If <u>YES</u> to any of the questions above in 16.3 - 16.8 you may need an arborist report and tree protection/ removal plan based on the topographical survey.				
QUESTION	YES	NO	MRL No.	Notes
17. Underground Tanks				
17.1. To the best of your knowledge, are there any <i>Underground storage tanks</i> on your property?			ENV104 Enviro Dept. Contact 604.990-2365
